

2019 SSCT Annual Technical Meeting - Conference

April 14 – 17, 2019

The Marriott Charleston, SC

CALL FOR PRESENTATIONS

The Southern Society for Coatings Technology has announced their 2019 Annual Technical Conference. We are currently seeking technical speakers for this event. Any interested parties should e-mail SSCTORG@gmail.com and complete the following abstract format.

2019 Speaker's Format

Speakers will be asked to present on the mornings of April 15th, 16th, and 17th. It is our goal to further the advancement of coatings technology through these speaker platforms.

The criteria for the presentations are listed below:

Abstract and Picture: An ABSTRACT for the presentation is required. The ABSTRACT must be submitted in its entirety. Submission deadline is no later than December 15th, 2018. Please submit abstract of max 250 words; please include: Name, Title, Company, Abstract title, and picture (2.5 inches by 2.5 inches/225 pixels by 225 pixels) to SSCTORG@gmail.com in a WORD DOCUMENT. Do NOT submit in PDF!

Acceptance letters will be sent on or before January 15, 2019.

Short Bio: The SHORT BIOGRAPHY (max 200 words) submission is due no later than January 15th, 2019. Please submit to SSCTORG@gmail.com in a WORD DOCUMENT. Do NOT submit in PDF!

Time: Presentations should be no less than 20 minutes and no longer than 30 minutes.

Audio Visual Equipment: Your submitted presentation will be readily available on our SSCT Computer for presenting.

Presentation: The actual PowerPoint presentation should be e-mailed to SSCTORG@gmail.com no later than March 15, 2019. Often we are asked by the attendees for copies of your presentation, please include your permission or not with the presentation email.

Content: We will be reviewing the presentations solely based on their technical content and contribution. It is our goal to have educational technical presentations to improve the understanding of the science of coatings. We are trying to challenge traditional methods of formulation as well as solve conventional issues that have plagued formulators utilizing new technologies and approaches. It is also our goal to improve coatings performance and functionality beyond traditional expectations. We anticipate seeing a company logo on the title and acknowledgement slides. However, we do not expect the presentations to be a platform for new proprietary product introductions, specific trade name promotions, or a lengthy commercial for the speaker's employer. Please keep this in mind when submitting your presentation.
